

## SOLAR PROJECTS

### **A) SUPPLY OF PV MODULES AND OTHER MATERIALS:**

Electro Products distributes select photovoltaic (PV) modules manufactured by top-notch ISO/ Globally certified factories in Germany, USA, Canada, China and India. Our solar projects utilize hi-tech technologies such as poly crystalline, mono crystalline & thin films and we ensure a systematic and consistent quality throughout all our installations. We are known to be extremely fastidious about our vendor selection and association protocol.

### **B) INSTALLATION AND COMMISSIONING:**

Electro Products has comprehensive expertise in designing, procuring and installing solar plants, grid-connected plants, rooftop systems and decentralized applications. We execute and commission turnkey projects irrespective of proportion and ensure strict adherence to timelines at every step of the way. Our vast experience ensures seamless concept to completion of any project, besides customization as per individual needs. We offer extensive solutions for homes, commercial or industrial projects both for power generation as well as solar water heaters. We have a team of skilled and experienced engineers, contractors with profound solar design experience. The team consists of several experienced engineers in the field of electrical, electronics, mechanical and civil engineering who under take detailed planning, design, execution & maintenance of solar power plants.
